

Please stop Sinclair from requiring local media stations to air anti-Kerry documentaries. I am shocked and deeply disappointed that this is occurring. The job of local news stations is to provide Americans with important news from nonbiased sources on a local, national and international level, NOT to tell us what to think or how to vote. I do not want to live in a democracy controlled by big media corporations. You, the FCC have the power to stop Sinclair and set an important precedent for future elections. Please help me and my community.

Thank you.
